Fax: (416) 449-9298

RE: INSTRUCTIONS FOR RETURN OF INSTRUMENT FOR REPAIR

In the event that you have to return an instrument to Tekran Inc for repair, please follow the procedures given below.

- 1) Obtain a commercial invoice from Tekran (lab-air-info@tekran.com) and include this document with your customs paperwork. This form is essential to ensure that your instrument is not delayed at customs. You can use the contents to fill out your UPS or FEDEX on-line commercial invoice. (See below.)
- 2) Pack the instrument securely in the original shipping container. If shipping a Model 2537A, please be certain to include the zero air canister and zero air pressure regulator. If a system contamination problem is possible, please include all accessories and replacement components, etc. purchased since they may help us locate the source of the problem.

3) **If using a manual waybill:** Fill out and sign the return authorization/commercial invoice supplied in this fax. Fields to be filled out are left blank in the form. (**Date, RMA number, your address, serial number of instrument.**) Make **three** copies. If we have included any other required forms in this transmission, please make **one** copy and add to documentation bundle. Place all forms in the UPS or FEDEX pouch. **Make sure you sign the form.**

If using a computer waybill: Transfer the information on the supplied invoice into the **Commercial Invoice** portion of your shipping software. Ensure that the invoice states that these are Canadian goods returning for repair

Note: *If you are shipping several instruments, or if your instrument requires several boxes, ensure that the waybill indicates that this is one shipment of several pieces !!*

- 4) Send the shipment via UPS or FEDEX, prepaid, to the address shown above. Use air (Red, Blue) service, not ground service. (Otherwise incoming customs charges will exceed any savings in shipping costs.) Please fill in the waybill as follows. Note that this information should be placed in the following waybill fields even if they are also in the invoice.

Broker Selection: Leave blank.

Complete Description
of Goods:

CANADIAN GOODS RETURNING FOR REPAIR
UV Spectrophotometer Class: 9813.00.0097
